

You're Invited to the D-Street Nesting Site!

*Help us to restore habitat for the endangered
California Least Tern*

California Least Tern & chick

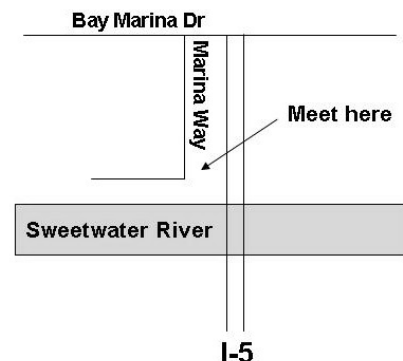

January 17, 9am - noon

**Groups are welcome!
Free t-shirts while supplies last!**

Join us for a unique opportunity to improve nesting habitat for the endangered California Least Tern at the D Street Nesting Site, located on the Sweetwater Unit of the San Diego National Wildlife Refuge Complex in Chula Vista. We'll be working to remove ice plant that has invaded native salt grass vegetation. Volunteers should work in old clothes (ice plant stains!), long pants and boots or sturdy shoes and wear sunscreen, sunglasses, and hats. We will provide work gloves, tools, snacks and water (bring your own reusable water bottle if you have one, otherwise cups will be provided). Please note that only heavy rain cancels this event. You don't need any special skills to volunteer - only a willingness to learn, work hard, and get your hands dirty!

*For groups of 10 or more, RSVP at (619) 682-7210
or dougherty@sandiegoaudubon.org*

Directions: From I-5, exit Mile of Cars/Bay Marina Drive and turn west. Turn left on Marina Way. Meet at the entrance of the bike path located on the east side of the street just as Marina Way curves to the right (see map). Lost? Call Shannon Dougherty at 617-943-1281.
