

NORTH EMBARCADERO VISIONARY PLAN PHASE 1

NEVP Construction Update #1:

Construction updates for the North Embarcadero Visionary Plan (NEVP) Phase I and nearby projects will be circulated weekly to keep the community informed about construction activities and progress.

NEVP Description:

The first phase of the NEVP will transform the San Diego bay front along North Harbor Drive from Navy Pier to B Street Pier and along West Broadway from the railroad tracks to North Harbor Drive.

The Project Will:

- Relocate North Harbor Drive to the east and improve the waterfront esplanade from the B Street Pier to the former Navy Pier;
- Improve West Broadway from North Harbor Drive east to the railroad tracks; and
- Add a third left turn lane from southbound North Harbor Drive to eastbound Grape Street.

Current Construction Activities:

- Currently, San Diego Gas & Electric (SDG&E) is relocating its utilities in preparation for the NEVP project's new alignment of North Harbor Drive. Work extends along the east side of North Harbor Drive, from Navy Pier to Ash Street, and on West Broadway, from North Harbor Drive towards Pacific Highway.
- To replace the parking spaces that were closed along North Harbor Drive, the Port of San Diego provided a new area of public metered parking. You can access this parking from Pacific Highway, just north of West Broadway.

Upcoming Construction Activities:

- The Port of San Diego has contracted with USS Cal Builders for the construction of NEVP Phase 1. USS Cal Builders is mobilizing its construction activities.
- New facilities for bay tour operators, Flagship Cruises & Events and Hornblower Cruises and Events, will be constructed just south of Broadway Pier. Construction of new floating docks for both bay tour operators commenced the week of January 30th and are anticipated to be completed in April 2012. Utility improvements are anticipated to be completed in June 2012.

Traffic Control and Pedestrian Access:

Traffic control signage is currently posted and streets will remain open to motorists during construction. Pedestrian and bicycle access will be available throughout areas of the project corridor. On occasion, there may be pedestrian detours to protect the safety of the public.

NEVP PHASE 1 QUICK FACTS:

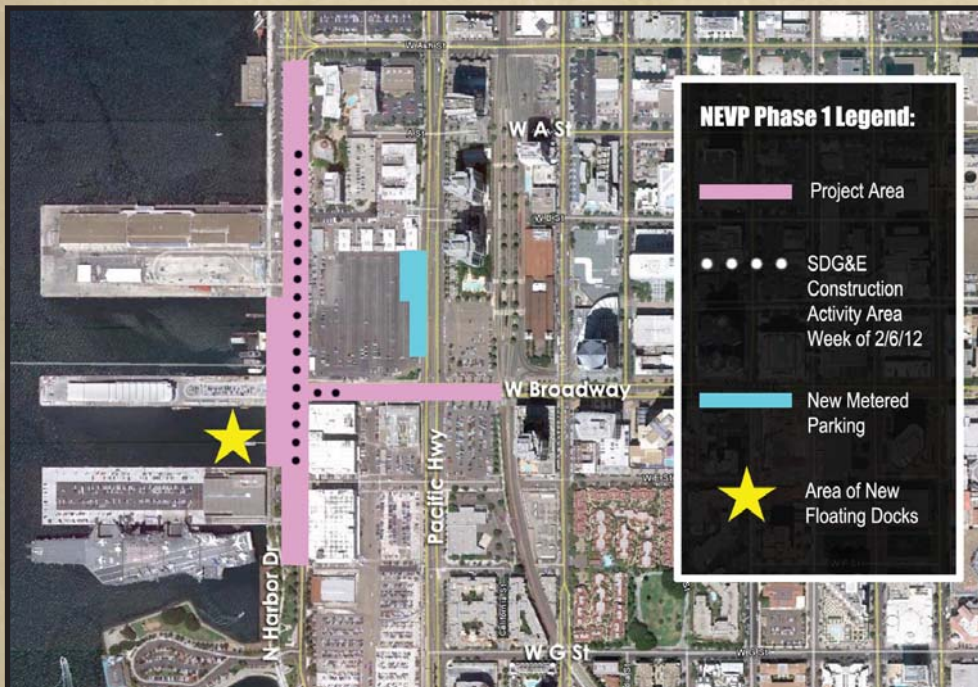

Anticipated Completion: Fall 2013

Total Project Cost: \$28.6 Million

Funding Agencies: Port of San Diego, City of San Diego and Centre City Development Corporation

Work Hours: Monday-Friday 7:30 a.m. - 4:00 p.m.
